

# Soul Sisters

There are several different sisters mentioned in God's holy Word;  
Each one unique, whose story should most certainly be heard.

*Martha* and her sister had such different personalities;  
One a doer, one a thinker – both immersed in hospitality.

*Ruth* and *Orpah*, sisters through their marriages to brothers;  
Each chose different ways to show a deep love for their mother.

*Rachel* and her sister suffered years of irritation,  
Yet together, with their husband, they were builders of a nation.

The *Daughters of Zelophehad* were bold in their request  
And claimed their share of land, and then were faithful to possess.

*Philip's daughters*, four of them, were full of dedication.  
They spoke to all who'd listen with prophetic exhortation.

*Miriam* stood watch over her baby brother's life;  
In later years supported him through times of trial and strife.

*Jehosheba* protected her brother's infant son  
And hid him from all danger 'till his time to reign had come.

Jesus had some sisters, although they're never named;  
What an awesome older brother for these girls to proudly claim.

Some sisters are related by the family bonds they share,  
While others gain connection through trials they jointly bear.

I love the sisters God has given so graciously to me.  
May we unite to bless His name for all the world to see.
